

# Southwest Region 3 Fire Hire

---

September 2010

The Southwest Region is looking for a committed, hard working, highly skilled workforce to manage wildfires and work in fuels management on 11 National Forests located in Arizona and New Mexico. The Fire and Aviation management program is very rewarding and requires talented people working safely as part of a team in a variety of specialized positions; including Assistant Fire Management Officers (AFMO), dispatch, engine crews, fuels management, hand crews, helitack, interagency hotshot crews, and prevention.

The Fire Hire program is being implemented to streamline the hiring process for permanent fire positions and provide consistent hiring around the Region. This change in our hiring process will assist the National Forests in the Southwestern Region in filling vacancies in a more efficient and timely manner. The unique feature of this process is the ability to immediately backfill positions that have been vacated

Enclosed is the Southwest Region 3 Fire Hire Outreach for GS-0462-06 through 09 current permanent fire and fuels positions covered by Open Continuous Rosters (OCR's).

Apply to vacant announcements via the AVUE Digital Services system at <https://www.avuedigitalservices.com> on or before August 16, 2010.

It is important that applicants understand, although a current location may not be vacant, it could become vacant and filled during the selection period. Interested individuals should apply to all positions and locations where you would accept a job offer, whether the position(s) are currently vacant or not.

Please respond to the outreach if you are interested in filling either a vacant position or one that may become vacant through the Fire Hire process. Your response is important in allowing supervisors to know who has applied to their positions and allows you the opportunity to learn more about the position prior to it being filled.

## The Process and Timeline

**July 1, 2010** – Outreach begins. A database is available on the Southwestern Regional Website listing all vacant permanent fire vacancies and locations from the GS-0462-06 through 09 levels.

**August 16, 2010** – Application deadline. Applications can be made through AVUE Digital Services. Applicants are encouraged to apply for multiple locations, even if vacancies for certain locations are not listed as vacant, as vacancies may occur during the hiring process.

**September 13-17, 2010** – Subject matter experts will evaluate applicants using a defined set of criteria.

**September 20-24, 2010** – Representatives from each Forest will make recommendations for hiring. Applicants selected will be notified by a Forest Service representative by phone. (Applicants not selected will be notified by e-mail.)

**October 24, 2010** – First effective date (excluding drug testing, transfer of station, and less than Permanent Full Time appointments).

**IFPM qualifications must be met by October 1, 2010.**

Additional information for applicants can be reviewed at <http://www.fs.fed.us/r3/fam/fire-hire/index.shtml>

## **Outreach Notice Reply**

If you are interested in any of these positions, please complete the following information **by September 20, 2010** and send to the respective contacts and duty locations listed in the Region 3 Fire Hire Outreach.

**Please respond to the outreach if you are interested in filling either a vacant position or one that may become vacant through the Fire Hire process. Your response is important in allowing supervisors to know who has applied to their positions and allows you the opportunity to learn more about the position prior to it being filled.**
